

HMIS Release Notes

April 3, 2020

What is the change?

There is a new program in HMIS to handle the Department of Correction (DOC) end-of-sentence discharges. The program is called the 'DOC Re-entry Housing Program'.

Which users are impacted?

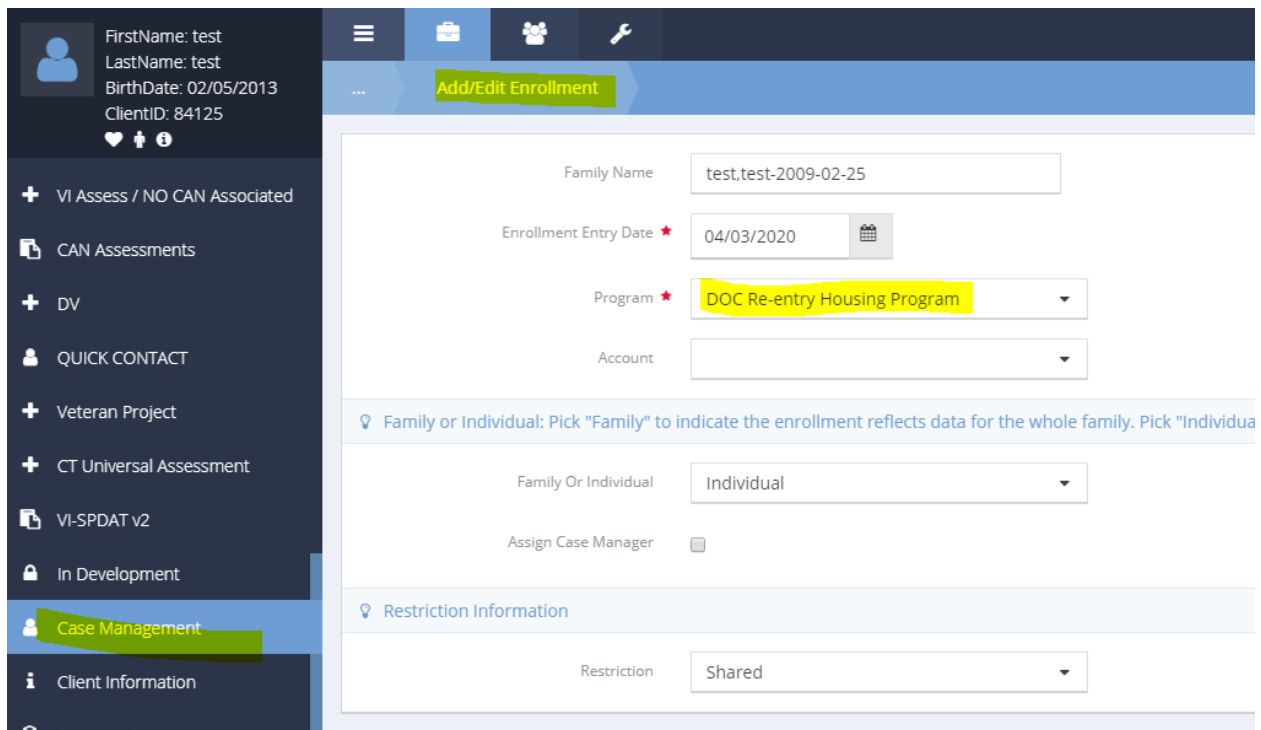

Both 211 (in the short-term) and the pre-identified CAN staff who are working with this population to provide housing solutions via the new DOC grant will use this new program.

How does this help?

This new program enables users to enroll the DOC clients into this flexible program and select which services were offered as well as record the amount.

When will I see this change in HMIS?

This change will be rolled out on April 3, 2020
