COVID-19 Health Screener and suggested Triage Protocol

**Call 911 for all emergencies. If client has a primary care provider, reach out to them directly first.**

1. **Do you think you have a fever? YES / NO**
   If you have access to a thermometer, use that to confirm rather than relying on self-report. A fever is a temperature over 100.4 degrees.

2. **Do you have a new or worsening cough? YES / NO**
   If YES to questions 1 or 2, client should be ISOLATED. Contact medical provider.

3. **Have you had contact with someone who is sick in the past 14 days? YES / NO**
   If YES to questions 1 or 2, and 3, client should be ISOLATED. Contact medical provider. If YES to question 3, but NO to question 1 and 2, client should be QUARANTINED.

4. **Do you have new or worsening shortness of breath / difficulty breathing? YES / NO**
   If YES, or appears to be in distress, please call 911.

5. **Do you have a blood disorder, kidney, liver, heart or lung disease, diabetes, high blood pressure, or any immunosuppressed conditions including medication-induced? YES / NO**

- If YES to 5, but NO to all other questions, client should be placed in MEDICALLY HIGH RISK SPACE.
- If YES and YES to questions 1 and 2 above, client should be placed in ISOLATION SPACE. Contact medical provider immediately.
- If YES and YES to only question 3 above, client should be placed in QUARANTINE SPACE. Contact medical provider and Local Health Department.
- If NO to all questions, household should be offered GENERAL SPACE.
<table>
<thead>
<tr>
<th>Types of Space</th>
<th>Population</th>
</tr>
</thead>
<tbody>
<tr>
<td>A) Isolation Space</td>
<td>- Individuals who are symptomatic per the screener and/or otherwise sick&lt;br&gt;- Triaged by medical professionals and deemed safe to recover in place</td>
</tr>
<tr>
<td>B) Quarantine Space</td>
<td>- Asymptomatic (not sick) individuals who have come into contact with someone who has tested positive for COVID-19 or presumed to be positive awaiting testing&lt;br&gt;- Individuals must stay 14 days and be monitored for symptoms&lt;br&gt;- Individuals who develop symptoms must be transferred to Isolation Space immediately&lt;br&gt;- If asymptomatic after 14 days, individual can return to either Medically High Risk or General Space, as appropriate</td>
</tr>
<tr>
<td>C) Medically High Risk Space</td>
<td>- Asymptomatic (not sick)&lt;br&gt;- Medically vulnerable&lt;br&gt;- 60+&lt;br&gt;- Have not come into contact with anyone who has tested positive for COVID-19</td>
</tr>
<tr>
<td>D) General Space</td>
<td>- Asymptomatic (not sick) / answer NO to screener to all questions&lt;br&gt;- Are not 60+ in age / medically high risk&lt;br&gt;- Have not come into contact with anyone who has tested positive for COVID-19</td>
</tr>
