HMIS Release Notes
BNL Registry Export Changes – Income Additions

May 22nd, 2020

What is the change?

Users who export the individual or family BNL Registry list to Excel format now see income data for each client.

The new columns included in the export are listed below.

- Income at Exit/Latest – EnrollmentID (EnrollmentID of latest enrollment)
- Income at Entry – AssessmentID (AssessmentID associated with the Entry Income data)
- Income at Entry - Total Income (Income from latest enrollments ENTRY assessment data for client)
- Income at Latest Update – AssessmentID (AssessmentID from latest enrollment's ENTRY, UPDATE, ANNUAL or EXIT assessment, whichever is most recent, for client)
- Income at Latest Update - Total Income (Income from latest enrollment's ENTRY, UPDATE, ANNUAL or EXIT assessment, whichever is most recent, for client)

The Income data is taken from the most recent enrollment where income data was collected from the HUD Financial Assessment.

Which users are impacted?

Any user who exports the BNL for reporting or other use.

How does this help?

This change provides a way to review changes in income between program enrollment and the latest assessment that occurred (Entry, During, Yearly, Exit)

When will I see this change in HMIS?

This change is expected to be rolled out on: May 22nd 2020

Summary of the changes:

Addition of the following fields to the Family and Single BNL Registry views.

- Income at Exit/Latest – EnrollmentID
- Income at Entry - AssessmentID
- Income at Entry - Total Income
- Income at Latest Update – AssessmentID
- Income at Latest Update - Total Income
