Agenda

- Review
 - Importance of entering COVID vaccination and testing data
 - How to enter and report on COVID vaccination data
 - How to enter, report, and upload files on COVID testing data
- Open Discussion
 - How's it going?
 - Questions
- Preview of draft new COVID dashboard

Importance of Entering COVID-19 Data

Understand your agency/program population

Safety

Deciding when to hold testing or vaccine clinic onsite

Keeping track of who should be isolating/quarantining

Understand the CAN and statewide COVID situation

HMIS is only source to track regionally and statewide

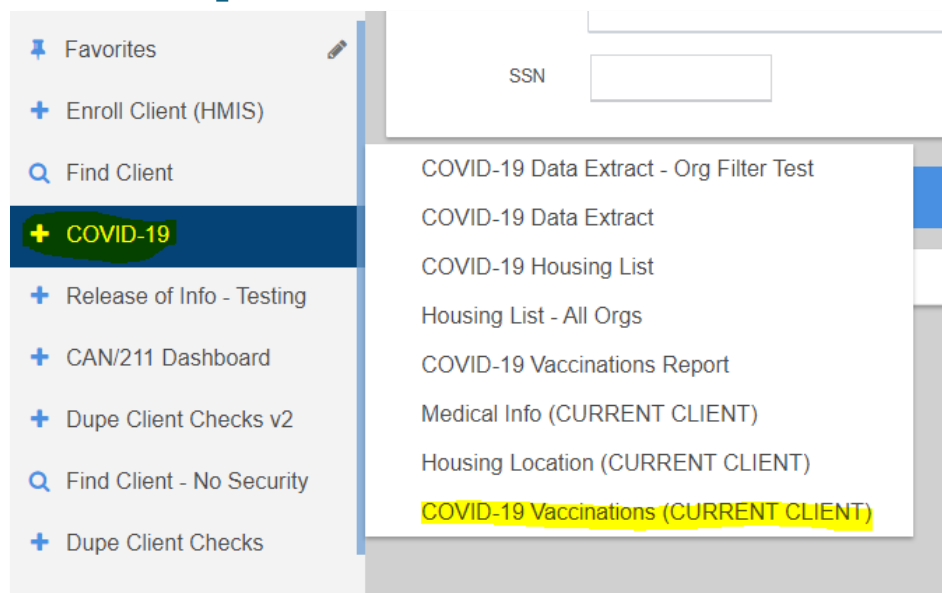

See trend data and be able to act on it

Entering COVID-19 Vaccine Data

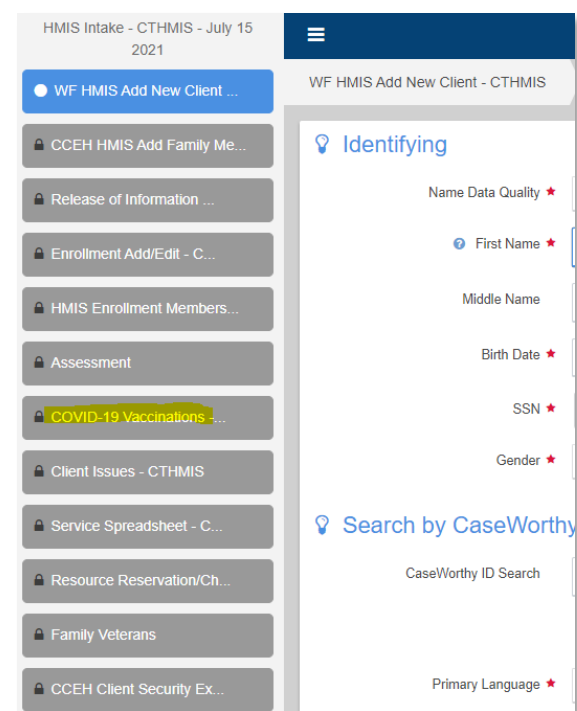

Entering COVID-19 Vaccine Data

There are 2 options to enter client vaccination data.

1. Left-hand menu [COVID-19 → COVID-19 Vaccinations [CURRENT CLIENT]]

2. In the workflow for new enrollments

New Enrollments

COVID vaccination questions will be in all new project enrollments on September 2, 2021.

HMIS Intake - CTHMIS - July 15 2021

WF HMIS Add New Client - CTHMIS

Updating COVID Vaccination Data

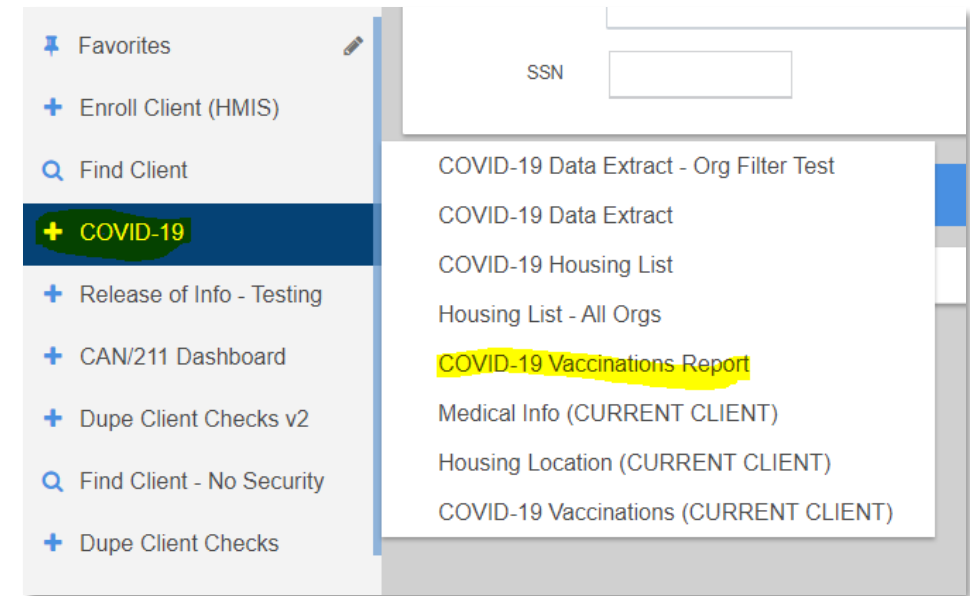

Use the left-hand navigation to update/edit client COVID vaccination data.

Congregate settings should update the COVID vaccination status/dates for everyone currently in their program (emergency shelter, transitional housing)

Vaccine Reports

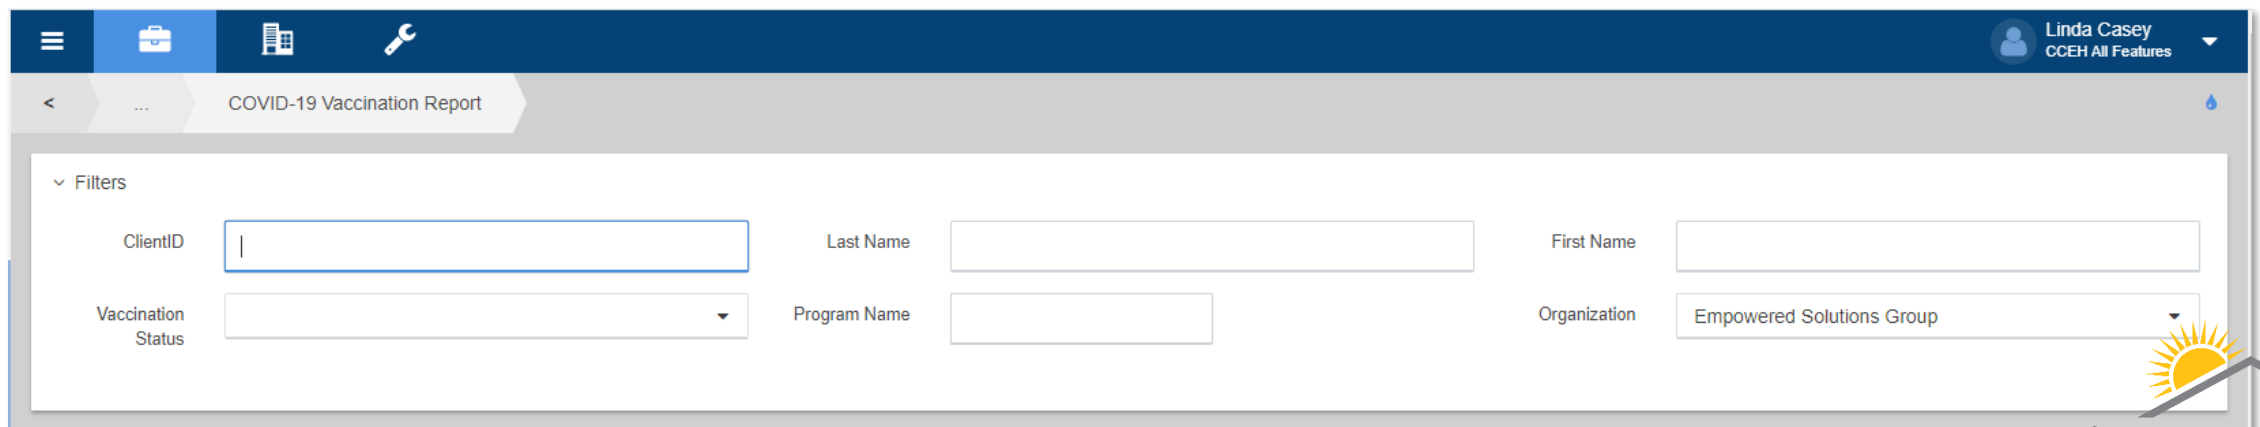

- Run a report on clients in your organization.
- Clear the 'Organization' field to run a report for your CAN. Export to Excel and filter by CAN.

Entering COVID-19 Testing Data

COVID-19 Testing Process

Steps for Testing Guests for COVID-19

- 1** Ensure guest has a signed HMIS ROI and a signed ROI from the testing provider. Provide the testing provider with the HMIS ID and guest name (and other demographic data if required by the testing provider).
- 2** Request the testing provider return the results to the shelter operator as an Excel file and include the following: HMIS ID, Test Date, Test Results.
- 3** Upon receipt of test results, enter the data manually one client at a time via the COVID-19 menu option OR upload the Excel spreadsheet with HMIS Id, Test Date, Test Result (Positive/Negative) to our secure Dropbox link <https://ncom.egnyte.com/ul/OBoBoXDOJ2>

COVID Testing File

Shelter sends FQHC an Excel spreadsheet with the following columns prior to any scheduled testing at the shelter or hotel, but only fills in the Client ID.

Client ID	Test Date	Test Result	Testing Location
12345			
23456			
34567			

FQHC returns the Excel spreadsheet with the following columns, and fills in the Test Date, Test Results, and Testing Location for all clients who have returned signed ROIs for the FQHC. The shelter can upload this file directly into HMIS via the following link: <https://ncom.egnyte.com/ul/OBoBoXDOJ2> or by going to **CTHMIS.com**, clicking on the 'Covid 19 Resource Page' and using the 'COVID-19 Testing Result & Hotel Dropbox' link under 'Forms'

Client ID	Test Date	Test Result	Testing Location
12345	10/19/2020	Negative	XYZ Shelter
23456	10/19/2020	Positive	XYZ Shelter
34567	10/19/2020	Negative	XYZ Shelter

Entering Test Data

The screenshot shows a web application interface for entering COVID-19 test data. On the left, a sidebar menu is visible with the following items:

- COVID-19
- Program Assessments
- CTI Plus
- Other Assessments
- Read-Only Data

Below the sidebar, a dropdown menu is open, showing the following options:

- COVID-19 Data Extract
- COVID-19 Housing List
- COVID-19 Vaccinations Report
- Medical Info (CURRENT CLIENT)
- Housing Location (CURRENT CLIENT)
- COVID-19 Vaccinations (CURRENT CLIENT)

A blue arrow points from the 'Medical Info (CURRENT CLIENT)' option to the main content area. The main content area has a red header bar with the text 'Covid Symptoms' and a user profile 'Lindsey Boudreau Supportive Housing (SHP)'. Below the header, there are two buttons: 'Add TEST' and 'Edit Test(s)'. A blue arrow points to the 'Add TEST' button. Below the buttons, there is a section titled 'Filters' with the following options:

- Presenting Symptoms (Click to HIDE)
- Any COVID-19 Symptoms? (dropdown menu)
- If Client is Deceased
- Client Died of COVID-19 (checkbox)
- VIEW/UPDATE existing tests below.
- Service Needs (Choose Options... dropdown menu)

At the bottom of the main content area, there is a table with the following columns:

Testing Date	COVID Testing Status	Testing Result Status	Testing Result Date	Testing Location	ID
Total Rows: 0

Open Discussion

We want to hear from you!

How is it going?
Questions?

Suggested Best Practices

- Whenever possible, ask for the client to show their vaccination card.
- Store image of vaccination card in documents section of HMIS.
- If client does not have card, ask them to login to CT WiZ or VAMS for documentation in front of you.
- If the client can't or won't produce vaccination card, enter **'No Vaccination'** as the status.
 - Update if/when you have documentation.
 - It is better to record that there is no confirmed vaccination then enter that a client is vaccinated when they may not be.

Lost Vaccination Cards

Contact Provider

1. Contact your vaccination provider to request a copy
2. Log into the patient portal and download copy

Login to VAMS

If you have an account, log into VAMS and download copy

- https://vams.cdc.gov/vaccineportal/s/recipientlogin?language=en_US

Get from DPH

1. Access your record via CT WiZ public portal
https://ctwiz.dph.ct.gov/ctwiz_public/Application/PublicPortal
2. Call the CT Department of Public Health Immunization Program at **(860) 509-7929**
Monday through Friday
8:30am-4:30pm

https://portal.ct.gov/vaccine-portal/Vaccine-Knowledge-Base/Articles/Lost-Vaccine-Card?language=en_US
