## COVID-19 Vaccination Tracking – Booster Update

December 2, 2021

### What are the changes?

Beginning 12/2/2021 users will be able to add information about COVID-19 boosters to client vaccination status. Once a client is recorded as having a complete vaccination, information about which booster they received and the date of the booster can also be added.

The updated form is located under:

Case Management tab > Left Menu > COVID-19 > COVID 19 Vaccinations (CURRENT CLIENT).

The report has also been updated to include booster information:

Case Management tab > Left Menu > COVID-19 > COVID 19 Vaccinations Report.

Initial vaccine data collection has also been streamlined, fields for location where vaccine was administered and date of next scheduled dose have been removed.

**Reminder: Collecting this information does not make a program subject to the Health Insurance Portability and Accountability Act (HIPAA).**

### Which users are impacted?

- Coordinated Access - 211
- Coordinated Access – Network
- DMHAS/DDAP
- DOH AIDS / HOPWA
- DOH Emergency Solutions (ESG)
- Emergency Shelter (ES)
- PATH Outreach
- Runaway Homeless Youth
- Services Only
- Supportive Housing (SHP)
- Supportive Services (SSVF)
- Transitional Living (TLP)

### How does this help?

Vaccination data can be used to:

- Determine how many people experiencing homelessness are vaccinated.
- Remind people who may need their second dose of vaccine.
- Mitigate ongoing COVID-19 outbreaks in congregate shelters.

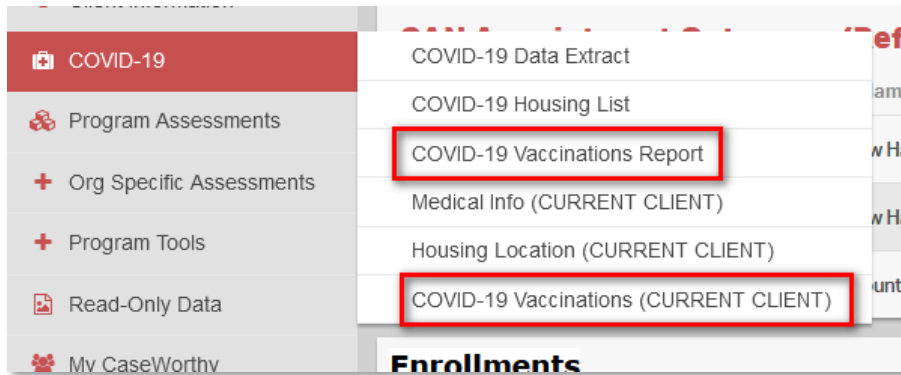

### When will I see this change in HMIS?
